

NOTE: Students should be familiar with the operation of their calculators and know when the calculator can be used effectively.

TEST / EXAM	POLICY
PSAT/NMSQT® and SAT® Program PSAT/NMSQT SAT SAT Subject Tests™ Mathematics Level 1, Mathematics Level 2 Biology E/M, Chemistry, Physics	Every question on these tests can be solved without a calculator; however, using a calculator on some questions may be helpful to students. A scientific or graphing calculator is recommended.* A scientific or graphing calculator is necessary. A graphing calculator may provide an advantage over a scientific calculator on some questions. The tests are developed with the expectation that most students are using graphing calculators.* Calculators are not permitted for these tests.
Advanced Placement Program® (AP®) Calculus AB, Calculus BC Statistics Chemistry, Physics B, Physics C: Mechanics, Physics C: Electricity and Magnetism Biology, Computer Science A, Environmental Science	A graphing calculator is required.*† A graphing calculator with statistics capabilities is expected.* Nongraphing scientific calculators are permitted only if they have the statistics computational capabilities described in the <i>AP Statistics Course Description</i> . A scientific or graphing calculator is permitted for these exams.*† Calculators are not permitted for these exams.
College-Level Examination Program® (CLEP®) Chemistry, College Algebra, College Mathematics Calculus, Precalculus Biology, Natural Sciences, Information Systems and Computer Applications	An online scientific calculator is provided for these computer-delivered exams. Students may not use their own calculators. An online graphing calculator is provided for these computer-delivered exams.† Students may not use their own calculators. Calculators are not permitted for these computer-delivered exams.

* Excludes portable/handheld computers, laptops, electronic writing pads, pocket organizers; models with QWERTY (i.e., typewriter) keypads as part of hardware or software (e.g., TI-92 Plus, Voyage 200); models with pen-input/stylus/touch-screen capability (e.g., Palm, PDAs, Casio ClassPad); models with wireless or Bluetooth capability; models with paper tapes; models that “talk” or make noise; models that require an electrical outlet; models that can access the Internet; models that have cell phone capability or audio/video recording capability; models that have a digital audio/video player; models that have a camera or scanning capability. In addition, the use of hardware peripherals with an approved calculator is not permitted.

† Calculator use is permitted on only some parts of these AP and CLEP exams.

Graphing calculators with the expected built-in capabilities for AP Calculus are indicated with a diamond (❖). See the *AP Calculus Course Description* for details. However, students may bring any calculator on the list to the exam; any model within each series is acceptable. Nongraphing scientific calculators are not permitted for the AP Calculus Exams. This list will be updated, as necessary, to include new allowable calculators. Check this list periodically, and prior to the administration of the exams, to ensure that students have the most up-to-date information.
